

EPICA

Vintage inspired body panelling, manual control lever machine that combines the best of tradition with industry leading technology and performance.

Thermal stability through the Rocket Espresso fully saturated group system, coupled with digital PID temperature control

Fully saturated group, with manual control of pressure through the lever for pre and post ramping of pump pressure, and a service boiler of 3.6 litres. Direct water connection or built in water reservoir.

EPICA. Superlative precision and control for baristas with an appreciation for style, and function in equal measure.

EPICA FEATURES

- Lever control with manual pressure profiling (no automatic/semi-automatic)
- Graphic colour touch display
- Permanent magnets volumetric pump for absolutely precise and silent operation
- Bodywork all stainless steel
- Boilers all AISI 316L stainless steel made.
- 24 Volt pump, 7.2 litres/min.
- Brew boiler + saturated group assembly: 1.9 litre - 1200 W
- Service boiler: 3.6 litre - 1400 W
- Maximum power consumption of machine: 1600 W

*With lever in vertical position

DIMENSIONS

- 420 x 505 x 645* mm (width x depth x height)
- Weight: 42.4 kg
- Water feed: Hard plumbed operation or pour over operation
